KoperniKids
Early Childhood Programs

Join us for the KoperniKids program, a kid-friendly approach to Science, Technology, Engineering, and Math (STEM) exploration designed especially for children from 3 to 7 years old. Each session will offer fun, hands-on learning with a different set of activities, experiments, and songs that will encourage your child to explore the wonderful world of science, technology, engineering and math. Come to one, two, or all three sessions!

KoperniKids

Session 1: My Bones, My Lungs, My Body

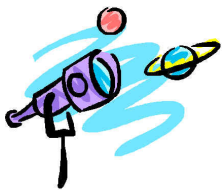

Monday, February 20, 2012 (school holiday) from 10am to 12pm

Your child will spend the morning learning about the body by exploring the bones in the skeleton and then experimenting with ways to see air going in and out of the lungs.

Session 2: Fun with Friction

Saturday, April 28, 2012 from 10am to 12pm

In this session, your child will investigate a puck sliding across different surfaces and learn how important it is to have friction in our lives.

Session 3: Exploring Space

Saturday, June 2, 2012 from 10am to 12pm

Your child will learn about the important role of astronomers and how they use telescopes to explore planets and stars beyond Earth, and then will learn how to use binoculars and telescopes to see far away!

Where: Kopernik Observatory & Science Center (KOSC), 698 Underwood Road, Vestal, NY

What to bring: An adult is required to stay with the child during the program
